From Vice Chancellor's Desk

I am delighted to extend my warmest greetings to all of you through the pages of our beloved Monthly Newsletter 'सुतीर्थ'. As the Vice Chancellor of this esteemed institution, I am constantly inspired by the talent, dedication, and creativity that our students, faculty, and staff bring to our campus community.

Our Monthly Newsletter serves as a testament to the vibrant culture of learning and intellectual curiosity that defines our institution. Within these pages, you will find a myriad of stories, articles, and features that showcase the remarkable achievements and contributions of our academic community.

This month's issue highlights not only the academic accomplishments of our students but also the innovative research endeavors undertaken by our faculty members. It brings to light the diverse range of activities and initiatives that make our institution a hub of knowledge and innovation.

I encourage you to immerse yourselves in the contents of this magazine, as it offers a glimpse into the heart of our academic community. It is a reflection of our commitment to excellence, inclusivity, and the pursuit of knowledge that empowers individuals to make a positive impact on the world.

I would like to express my heartfelt gratitude to the editorial team, writers, photographers, and all those who have contributed to this issue. Your dedication and hard work have brought this magazine to life, and I am truly appreciative of your efforts.

I invite all readers to actively engage with the magazine, share your feedback, and contribute your own stories and ideas. Together, we can continue to enrich the intellectual discourse on our campus and inspire future generations of leaders, thinkers, and innovators.

Thank you for your continued support and enthusiasm. I look forward to witnessing the continued growth and success of our academic community, as we collaborate to create a brighter future through education.

Warm regards
Dr. Harshad A. Patel

12TH JOSH : ANNUAL SPORTS MEET OF THE UNIVERSITY

Paras Yadav

Public Relations Officer cum
Publishing Officer, IITE

The Indian Institute of Teacher Education (IITE), Gandhinagar annual sports event called JOSH showcased a diverse range of sports, including Badminton, Kabaddi, Kho-Kho, Long Jump, Running Events, Shot put, Javelin throw, Table Tennis and Volleyball. The festivities commenced with an inaugural ceremony featuring esteemed guests and faculty members.

The chief guest for the inauguration function was the former Dean and Professor, Dr. Jagdishchandra Savlia, from Mahadev Desai Shareerik Mahavidyalay, Gujarat Vidyapith, Sadra. The ceremony witnessed the gracious presence of the Honourable Vice-Chancellor and Registrar, underscoring the university's commitment to sports and physical well-being.

The staff members of IITE, Gandhinagar joined hands and cooperated each other during the 12th Edition of the annual sports meet to make it a hit. From Planning, Registration of Colleges and Students, Provision of Food, Accommodation, Transportation, Organisation of Multiple Sports Events, Photography and Videography to Prize Distribution entire event was well-planned and executed to facilitate the students.

The valedictory function, chaired by Dean and Professor Dr. Viral Jadav, was graced by another distinguished guest from Mahadev Desai Shareerik Mahavidyalay, Gujarat Vidyapith, Sadra. Dr. Jagdishchandra Gothi. Their presence added prestige to the event, emphasizing the importance of sports in holistic education.

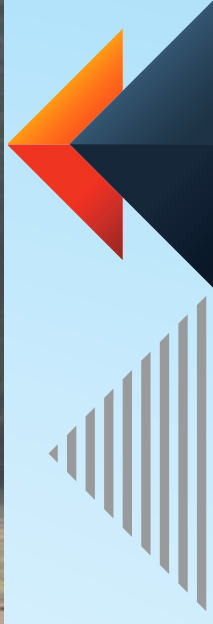

The total number of colleges and students that enthusiastically participated in JOSH 2023 are 33 and 704 respectively in the annual sports event of IITE, Gandhinagar.

The various sporting events unfolded with high levels of enthusiasm and skill, showcasing the athletic prowess of the university's students. Notable performances in Badminton, Kabaddi, Kho-Kho, Long Jump, Running Events, Shot put, Javelin throw, Table Tennis and Volleyball captivated the audience, fostering a sense of sportsmanship and camaraderie.

Sutirth - January 2024 | 4

The Indian Institute of Teacher Education (IITE), Gandhinagar annual sports event proved to be a resounding success, bringing together students, faculty, and esteemed guests in a celebration of sportsmanship and talent. The commitment of the university to holistic education, encompassing physical well-being, was evident throughout the event. The active involvement of the Honourable Vice-Chancellor and Registrar, alongside distinguished guests, further emphasized the significance of sports in the university's ethos.

VIBRANT GUJARAT

Stepping into Academic Excellence: Among six other projects for Vibrant Gujarat 2024, our special partnership with the Indian Institute of Teacher Education (IITE) stands out as a significant journey for Kamnath Pvt. Ltd. The teamwork and commitment to excellence from IITE had a lasting impact on our team, influencing our approach even beyond this collaboration.

Immersing in Excellence: From concept to execution, every element underwent rigorous scrutiny, honing our attention to detail like a diamond cutter's touch. This commitment to excellence, an invaluable lesson, continues to shape our approach to future projects.

A Kaleidoscope of Learning: Collaborating with IITE gave us a fascinating look into the core of the institute. Their strong dedication to Prime Minister Modi's vision of a 'Viksit Bharat' was evident in every aspect of the stall. Through a meaningful exchange of ideas and experiences with the IITE team, we gained a deeper understanding of its focus on improving faculty development, their commitment to impactful social initiatives, and their emphasis on creating a thriving academic environment. This shared learning experience has been priceless for both teams.

Beyond Exhibits, a Bridge of Connection: At the event, the IITE stall went beyond being just displays; it acted as a bridge connecting with curious minds and encouraging dialogue. Inquisitive voices mixed with well-informed explanations, and sparks of understanding lit up eager eyes. It showcased the strength of collaboration, where Kamnath's creative skills enhanced IITE's educational mission.

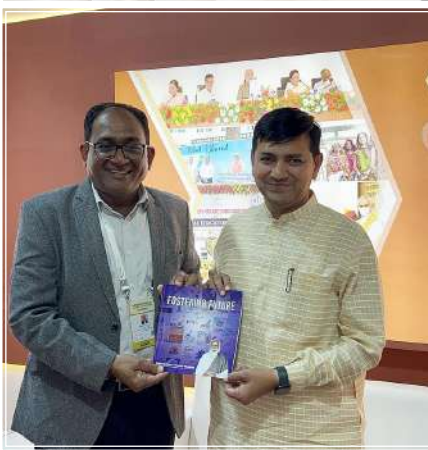

Fuelled by Passion, Conquered by Teamwork: The ascent wasn't done alone. Behind every careful detail, every colorful panel, and every precisely adjusted color shade were the hearts and hands of our amazing team. Nights mixed with days as they put their heart into turning vision into reality. Restless nights were powered by strong commitment, each challenge overcome a proof of their shared spirit.

From Vision to Legacy: On the last day of the event, as the sun dipped below the horizon, the IITE stall continued to glow. It was a beacon of hope, a testament to the transformative power of education, and a lasting symbol of the beautiful partnership between Kamnath and IITE. Together, we stand poised to contribute to the ongoing evolution of India's educational landscape.

NVIVO WORKSHOP

The Centre of Research, organized NVivo Workshop on Qualitative Data Analysis on 06/01/2024 at 9:00 a.m. to 5:00 p.m. The workshop began with rendering the university song and lighting the lamp. Dr. Viral Jadav, Director, Centre of Research, IITE, Gandhinagar served as advisor and as Convener for this workshop and talked about the endeavours taken by Center of Research, IITE. Dr. Dhaval Mehta, Professor in Department of Business and Industrial Management at VNSGU, Surat, served as the expert for the workshop.

Professor Prerana Shelat was the chief guest of inaugural session and talked about the importance of research. Dr. Yesha Bhatt, Research Assistant has anchored all the sessions.

As a teacher training institute, this initiative aimed to enrich learners' knowledge in the aforementioned areas, recognizing that the construction of tools in qualitative research is pivotal for ensuring the depth, richness, and trustworthiness of the study. Qualitative research relies on carefully designed and developed tools, such as interview guides and open-ended surveys, to capture nuanced insights and perspectives. It is crucial that these tools are thoughtfully crafted to elicit meaningful responses and contribute to a comprehensive understanding of the variables of interest.

This Workshop received a great deal of attention and commendable responses from research scholars and research supervisors. A total 50 participants from various Institutes were registered (from which 43 were attended the workshop). The workshop fees were 600/- INR but it was free for the research scholars and staff members of CoR.

Discussion:

- 1.Session-1(11:00 am to 1:00 pm): This session was engaged on the basic difference of quantitative and qualitative data analysis and the elements to analyse qualitative data. The expert explained the process of quotation, codes and themes with the importance of 'context' along with hands-on practice.
- 2.Session-2(2:00 pm to 4:00 pm): In this Session, topic was matrix coding sub-coding and word cloud along with interpretation of frequency and codes. The expert took a small practical test by randomly choosing participants to tell the process of the coding taught during the session.
- 3.Session-3(4:00 pm to 5:00 pm): This session was focused on addressing questions and clearing doubts.

In conclusion, the NVivo workshop on qualitative data analysis has proven to be an invaluable experience, providing participants with a comprehensive understanding of the software's capabilities. Through hands-on exercises and guided tutorials, attendees gained proficiency in coding, organizing, and analysing qualitative data efficiently. As researchers increasingly rely on qualitative methods, NVivo emerges as a powerful tool that empowers them to unlock deeper meanings within their data, ultimately enhancing the rigor and validity of their qualitative analyses. The interactive format of the workshop also allowed for a productive exchange of ideas and feedback among the attendees.

The participant's queries were very well clarified by the resource persons and feedback form collected from the participants after completion of workshop. In the feedback, around 80% of the participants have mentioned that the the quality of the content, relevance of the provided information and usefulness was of superior level. More then 95% of the attendees have showed interest in the additional information on this topic, more than 70% of attendees have admired the enthusiasm and knowledge of the presenter. all the attendees have mentioned that they would join similar programmes organized by CoR and appreciated the conduct of staff. The organizing committee members Dr. Yesha Bhatt, Mr. Kaustubh Upadhyay and Ms. Afsana Savant have worked with dedication in the overall organization of the workshop. The workshop was ended by Vote of Thanks by the Convener Dr. Viral Jadav. Certificates were issued by the department after successful completion of the program.

Dr. Viral Jadav
Director,
Centre of Research

BRAILLE WORKSHOP

IITE, celebrated World Braille Day on 4th January, 2023. To celebrate it with a difference center of special education under its project SAMBHAV:- Stakeholder Awareness for Multiple Disability & Behavioral Adaptation organized one-day hand-on workshop on Braille for teacher-trainees. The theme of this years World Braille Day emphasized on " Empowering Through Inclusion and Diversity", which highlights the commitment to creating a world where individuals with visual impairments are not only recognized but fully included in all aspects of society. It emphasizes the transformative power of embracing diversity within the visually impaired community and advocates for an inclusive environment that enables everyone, regardless of their abilities, to thrive and contribute meaningfully. This day is celebrated annually to honor the birth of Louis Braille. He was inventor of braille system of reading and writing used by blind people throughout the world. It is important to appreciate how braille has made life easier and better for millions of blind people around the world. This day also serves as powerful reminder of the need of equal rights, highlighting the importance of recognizing and empowering the blind in our global community. Braille is the system of raised dots that can be read with fingers by people who have low vision or are blind. Teachers, Parents and others who are not visually impaired ordinarily read braille with their eyes. Braille is not a language, rather it is code by which many languages- such as English, Spanish and dozen other may be written and read. Considering the abovesaid and in light of inclusion as per NEP 2020, Centre of Special education designed the workshop for teacher trainees from all the aspects of teacher education to gain basic knowledge, understanding and application part of braille. The thought was motivated from the idea that every teacher should be empowered on dealing with learner from any ability background. This ability to read and write in braille would lead a future teacher to deal with visually impaired or low vision student in their class with efficacy. The workshop was organized and limited for 50 participants to give them hands-on exposure and practice in braille. Dr. Hemant Maurya expert from IITE, Shree Lalitbhai Mehta and Shri Hiteshbhai Chaudhari from Blind People Association were trainer for the same. Teacher-trainees were oriented about what braille is and then were followed by session on language writing and mathematical terms writing on braille. During the session the enthusiasm on part of trainee were so infectious that they prepared many braille sheets with raised dots and they enjoyed and appreciated working on it. It was identified that this kind of workshop should be organized on regular basis and for even extended duration of time. The feedback was positive that IITE and Centre of special education has decided to organize this workshop every year. On our part it was one step for reaching blind and visually impaired persons in field of education and making it a as ability which everyone should be aware of as individual making difference in inclusive society.

Dr. Dipti Khanna
Director,
Centre of Special Education

Life Skill Training Program

Indian Institute of
Teacher Education
Guru Drona Skill Department
Life Skills Training
17th and 18th January, 2024

Guru Drona Skill Department of IITE organized a Life Skills Training workshop for the Semester 2 students of B.Sc.B.Ed. and B.A.B.Ed. on 17th and 18th January 2024. The invited expert for the workshop was Mrs Krishna Patel, Head, Western Region, Aparajita Foundations.

Aparajitha Foundations is a part of Aparajitha Corporate Services, dedicated to the cause of transforming youth by imparting training for right attitude and greater awareness about their life. From the last 15 years, the organization has been making dedicated and effective efforts to build a stronger community through various programs. One of their preeminent CSR initiatives, started in 2008 with a vision to introduce life skills to students is TTT (Tim Tim Tare) designed on the basis of 10 core life skills defined by WHO which are extremely significant to lead a holistic life. This program is successfully running in more than 9 states in India.

The life skills selected for the two day workshop was Creative Thinking and Problem solving. The important points discussed in the sessions are:

Creative thinking:

Creative Thinking is the ability to come up with unique, original solutions. Creative thinking skills are definitely not just for 'creative types' like artists and musicians. Everyone can benefit from creative thinking from time to time. Creative Thinking is a way of looking at problems or situations from a fresh perspective that suggests unorthodox solutions (which may look unsettling at first). Creative thinking can be stimulated both by an unstructured process such as brainstorming, and by a structured process such as lateral thinking. Typical examples of times when a person might take the time to use creative thinking techniques include:

- (i) When a person is facing a major problem or issue, and cannot see an obvious way forward.
- (ii) At times of change, when it is hard to see what might lie ahead, and may want to think about possible scenarios.
- (iii) When there is a lot of disagreement about what needs to happen next, and no compromise seems possible without a lot of effort.
- (iv) When a person needs something new, that has not been tried before, but we are not sure what.
- (v) On occasions like this, it may be worth doing some 'formal' creative thinking, and using a trained facilitator to help the group get the most out of the session.

Beyond 'formal' creative thinking opportunities, there are also things that we can do to help think more creatively on a routine basis.

These include:

- (i) 'Spreading the social wings' to get to know a wider and more diverse group of people. We all tend to get on best with people who are like us, and particularly people with the same background and overall views on life. However, associating with people who are like us tends to mean that our thinking gets a bit 'lazy'. Our assumptions go unchallenged, and our views tend to get reinforced.
Taking time to actively go out and meet new people—and particularly more diverse people, who are not so like us—will help us to challenge your assumptions.
- (ii) Embracing new opportunities and trying new things. It is worth challenging to learn a new skill, or do something that we find difficult, simply for the effect it will have on our thinking!
- (iii) Challenging stereotypes and forcing ourselves to think beyond the obvious. Being conscious of stereotypes, and asking oneself 'But why do I think that?' will help to surface our assumptions, and help to think more creatively.

(iv) Engaging with art, theatre and music. It seems that people who visit the theatre, go to concerts, or engage with other cultural activities are also more able to think creatively. The thinking is that these activities help us to see things from a new perspective, and therefore to think more creatively. They also, apparently, can help you to feel more connected, and generally kinder. Taking time to enjoy arts or create something in our leisure time will help us to broaden our horizons more generally.

Problem Solving:

Problem solving is the act of defining a problem; determining the cause of the problem; identifying, prioritizing, and selecting alternatives for a solution; and implementing a solution. Finding a suitable solution for issues can be accomplished by following the basic four-step problem-solving process and methodology outlined below.

Step 1: Define the problem

- ✓ Differentiate fact from opinion
- ✓ Specify underlying causes
- ✓ Consult each faction involved for information
- ✓ State the problem specifically

- ✓ Identify what standard or expectation is violated
- ✓ Determine in which process the problem lies
- ✓ Avoid trying to solve the problem without data

Step 2: Generate alternative solutions

- ✓ Postpone evaluating alternatives initially
- ✓ Include all involved individuals in the generating of alternatives
- ✓ Specify alternatives consistent with organizational goals
- ✓ Specify short- and long-term alternatives
- ✓ Brainstorm on others' ideas
- ✓ Seek alternatives that may solve the problem

Step 3: Evaluate and select an alternative

- ✓ Evaluate alternatives relative to a target standard
- ✓ Evaluate all alternatives without bias
- ✓ Evaluate alternatives relative to established goals
- ✓ Evaluate both proven and possible outcomes
- ✓ State the selected alternative explicitly

Step 4: Implement and follow up on the solution

- ✓ Plan and implement a pilot test of the chosen alternative
- ✓ Gather feedback from all affected parties
- ✓ Seek acceptance or consensus by all those affected
- ✓ Establish ongoing measures and monitoring
- ✓ Evaluate long-term results based on final solution

All the students participated in the workshop very enthusiastically and contributed in terms of Group discussion, Role Play and Games. The workshop concluded on a positive note with vote of thanks by Dr. Jumisree Sarmah Pathak, Head, Guru Drona Skill Department, IITE.

Dr. Jumisree Sarmah Pathak
Assistant Professor, COE, IITE

PROJECT BASED LEARNING

In the pursuit of holistic education, the Institute of India Education(IITE) in Gandhinagar organized an enlightening visit to the Statue of Unity and Vadnagar. These immersive experiences, part of the Project-Based Learning (PBL) initiative under the Viksit Bharat Abhiyan, aimed to provide students with a firsthand exploration of the cultural, historical, and educational factors.

PARIKSHA PE CHARCHA

Students of Indian Institute of Teacher Education (IITE), Gandhinagar attending the live session of Pariksha Pe Charcha 2024. Pariksha Pe Charcha is part of the larger movement - 'Exam Warriors' - led by Honourable Prime Minister Narendra Modi, to create a stress-free atmosphere for youngsters.

CENTER OF TRAINING

The Center of Training at IITE is a pivotal hub dedicated to enhancing skills and capacity building for in-service teachers. Focused on sectors like Higher Education, School Education, Teacher Education, and Community engagement, it successfully implements grant projects, including flagship programs with the Sainik School Society and initiatives on Climate Change and the Indian Knowledge System. The Center of Training has conducted following training programs throughout January 2024, as of 24/01/2024.

“Where Dedication converges with Innovation lies the Essence of teachers’ Training”

One Day Workshop on Educational Innovations, 7th January 2024, Mode - Offline

On January 7th, 2024, the Center of Training at the Indian Institute of Teacher Education (IITE), Gandhinagar, hosted a transformative one-day workshop on Educational Innovations under Government grant project for Teachers training entitled 'निपुणता की ओर', concurrently unveiling the collaborative book 'Educational Innovations' with Professor Anil Gupta. This unique compilation encapsulates the inventive approaches of school teachers, showcasing their personalized and effective teaching methods. The workshop, graced by the esteemed presence of Padma Shree Awardee Professor Anil Gupta, (retd. Professor IIM) witnessed a convergence of educators, led by Honourable Vice Chancellor Dr. Harshad Patel, and Professor Sonal Thareja, Director of the Center of Training at IITE. The event not only underscored IITE's commitment to cultivating a culture of innovation but also provided a dynamic platform for educators to share, learn, and collectively contribute to the advancement of educational practices.

Pioneering NEP 2020- Innovative Classroom Practices, (Customized out campus training at Anand Niketan, Sughad),13th January 2024 Mode - Offline

The Center of Training at the Indian Institute of Teacher Education (IITE) recently customized a Teachers Training program for the educators of Anand Niketan, Sughad, hosted at their campus under the Government grant project for Teachers Training titled 'निपुणता की ओर' — Pioneering NEP 2020- Innovative Classroom Practices. The sessions were meticulously curated to delve into various facets of innovative classroom practices, covering topics such as Classroom Management Techniques, Nurturing Diversity through Inclusive Education, Crafting Narratives, and Igniting Minds through Storytelling Pedagogy, along with the art of Cultivating Joyful Classrooms through Innovative Pedagogies. The training garnered significant praise for its comprehensive and impactful approach, reflecting the commitment of IITE in empowering educators with contemporary teaching methodologies.

Indian Knowledge System in School Education

SOCIAL MEDIA UPDATES

Instagram

IITE, Gandhinagar is active on Instagram. Our official page has 6,412 followers. In January 2024, the official Instagram Page of IITE reached 14,681 accounts. More than 2,213 accounts engaged with us this month. Our attempt is to make the platform student friendly. We usually post - Reels, Posts, General Information, Quiz and more for the welfare of our students. It is an attempt to help students learn and stay informed with some fun. We also post achievements and creative reels by our Students and Faculty Members. This allows them to showcase their talent and get a digital stage for themselves.

Twitter

We are active on X. Our plan is to post important policies, MOU's, and post regarding innovative initiatives like Teacher's Tune daily. X also allows us to gather information through creative polls. X is a crucial social media platform that helps us with identifying trends and gathering global information

Facebook

Our official page on Facebook is as active as Instagram. Most of the content here is in-line with what we have on Instagram. In January, 2024, our official Facebook Page reached 28.8K accounts. 18.6K account engaged with us this month using Facebook. Our attempt is to make the platform Student and Faculty friendly. Most of our faculty members are active on Facebook. We also share information regarding various workshops, conferences and faculty achievements on our Facebook Page. Facebook allows us to provide stage and showcase world the work of our esteemed organization.
